

# BARELY

A BOUDOIR EXPERIENCE

BY GAINSBORO STUDIO

LET US  
*transform*

YOU

INTO A THING

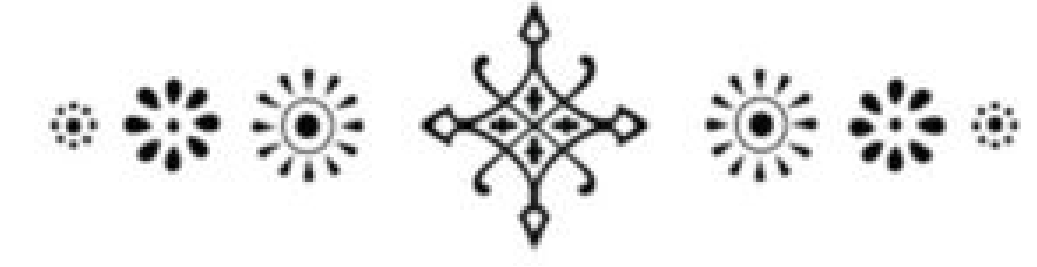

OF

PURE  
BEAUTY.

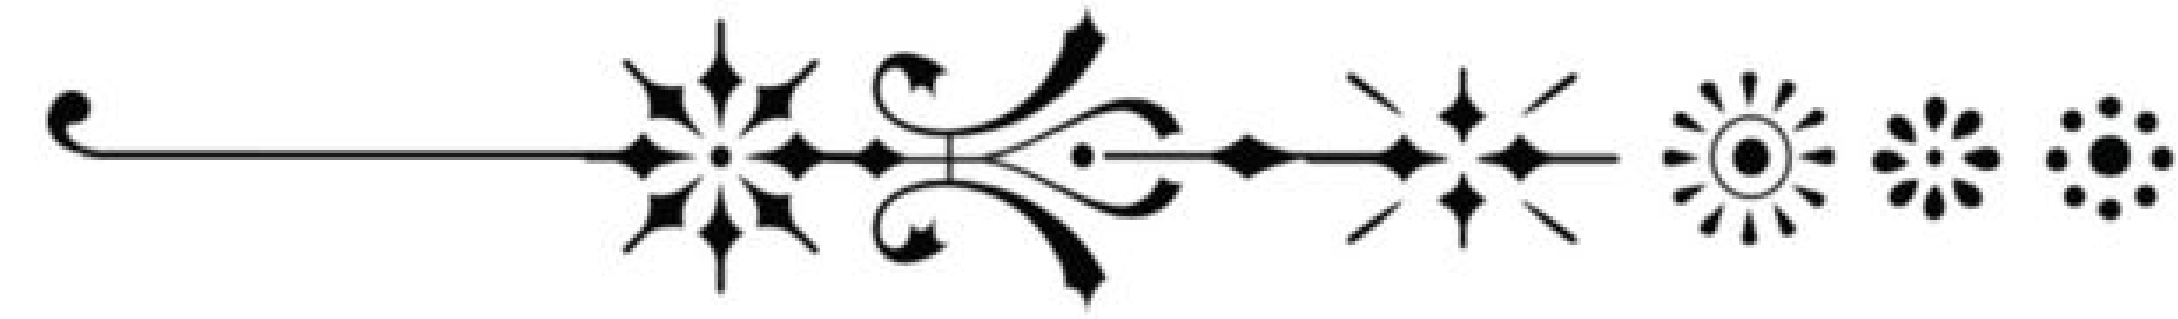

GAINSBORO STUDIO PHOTOGRAPHY

YOU ARE —————  
*completely, totally*  
**SEXY.**

Yes, you. Don't believe us? We'll show you. We *promise*.

Sexy is an attitude. It's an angle – a part of who you are.  
Your job is to be yourself. Our job is to bring out the best  
in you. With professional styling, the right lighting, and a  
few hours just the two of us together, we will transform  
you into a thing of pure beauty.

Gainsboro has been taking boudoir portraits since 2007.  
It's one of our favorite forms of photography – producing  
provocative, evocative imagery of beautiful women  
just like you.

# HEY GIRL, *let's get this thing* STARTED.

— HERE'S HOW IT WORKS.

What makes Gainsboro Boudoir a unique experience begins far before we snap the shutter for the first time. The best boudoir images come from an experienced photographer working with a happy, comfortable model – a combination that can take time to develop!

## 1 **FIRST MEETING**

Every session begins with an initial in-person consultation so we can get to know one another. Your place, ours, or somewhere in-between – we love to meet over a cup of tea or wine and talk about who you are and who you'd love to become during our session. We also encourage clients to use this time for questions and ideas; and we love to show you our beautiful print products in-person to give you a feel for the final outcome of your session.

## 2 **BOOK IT!**

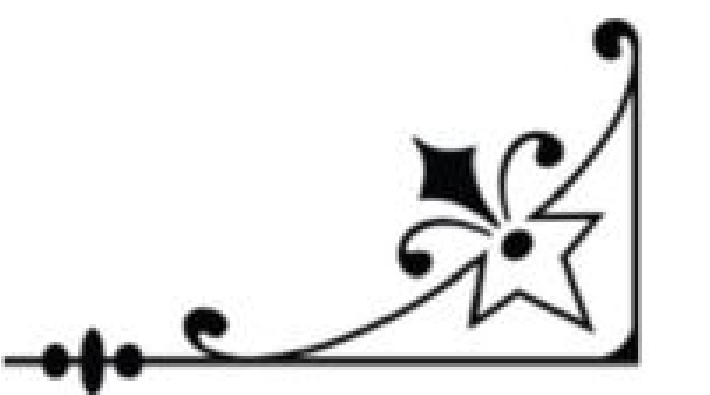

After the initial consultation, we'll work together to book your session date. We have some wonderful resources for props and outfits which we love to share with our clients!

## 3 **THE AFFAIR**

On the day of your session, we'll sit and chat for a while – sip a glass of champagne or juice – listen to your favorite music. Whatever makes you comfortable! One of our expert professional stylists will be with us on-location to transform you into a supermodel and provide touch-ups throughout the session. After hair, makeup, and a few sips of your favorite drink – we'll get right down to it. Just you, me, and the camera. It'll be awesome.

## 4 **END RESULTS**

After your photoshoot, we'll post 20-30 of the best images to a password-protected private online gallery for you to view, enjoy, and maybe even share with that special someone. Each image is lovingly hand-retouched to accent your best features while masking the rest! From this gallery you will be able to order prints, albums, and a variety of beautifully crafted photo products

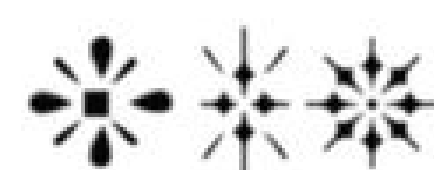

GETTING INTO YOUR  
*comfort*  
ZONE

*tell us  
how to  
please  
you!*

More than a perfect hairdo, brilliant makeup, or a well-fitting bra, the best way to guarantee a fantastic photographic outcome is for you to be completely and totally comfortable in front of the camera. Well, maybe not completely – a little edge can add wonders – but comfortable enough to show us what makes you especially sexy. Have fun filling out this little worksheet – and tell us what puts you in your element!

**WEAR?**

“What to  
wear  
depends  
entirely on  
you!”

Ah, what to wear! One of our most frequently asked questions, and our favorite to answer! What to wear depends entirely on you – what kind of look you envision for yourself, what genre or era you’re trying to evoke, and most importantly, what makes you feel most comfortable!

Some clients prefer to bare it all – while others like to remain more conservatively covered. Any way you like it, we’ll work with you to create the photographs of your dreams. Here are a few pointers we’ve gathered from our years of experience! for the final outcome of your session.

*continued on next page* ➡

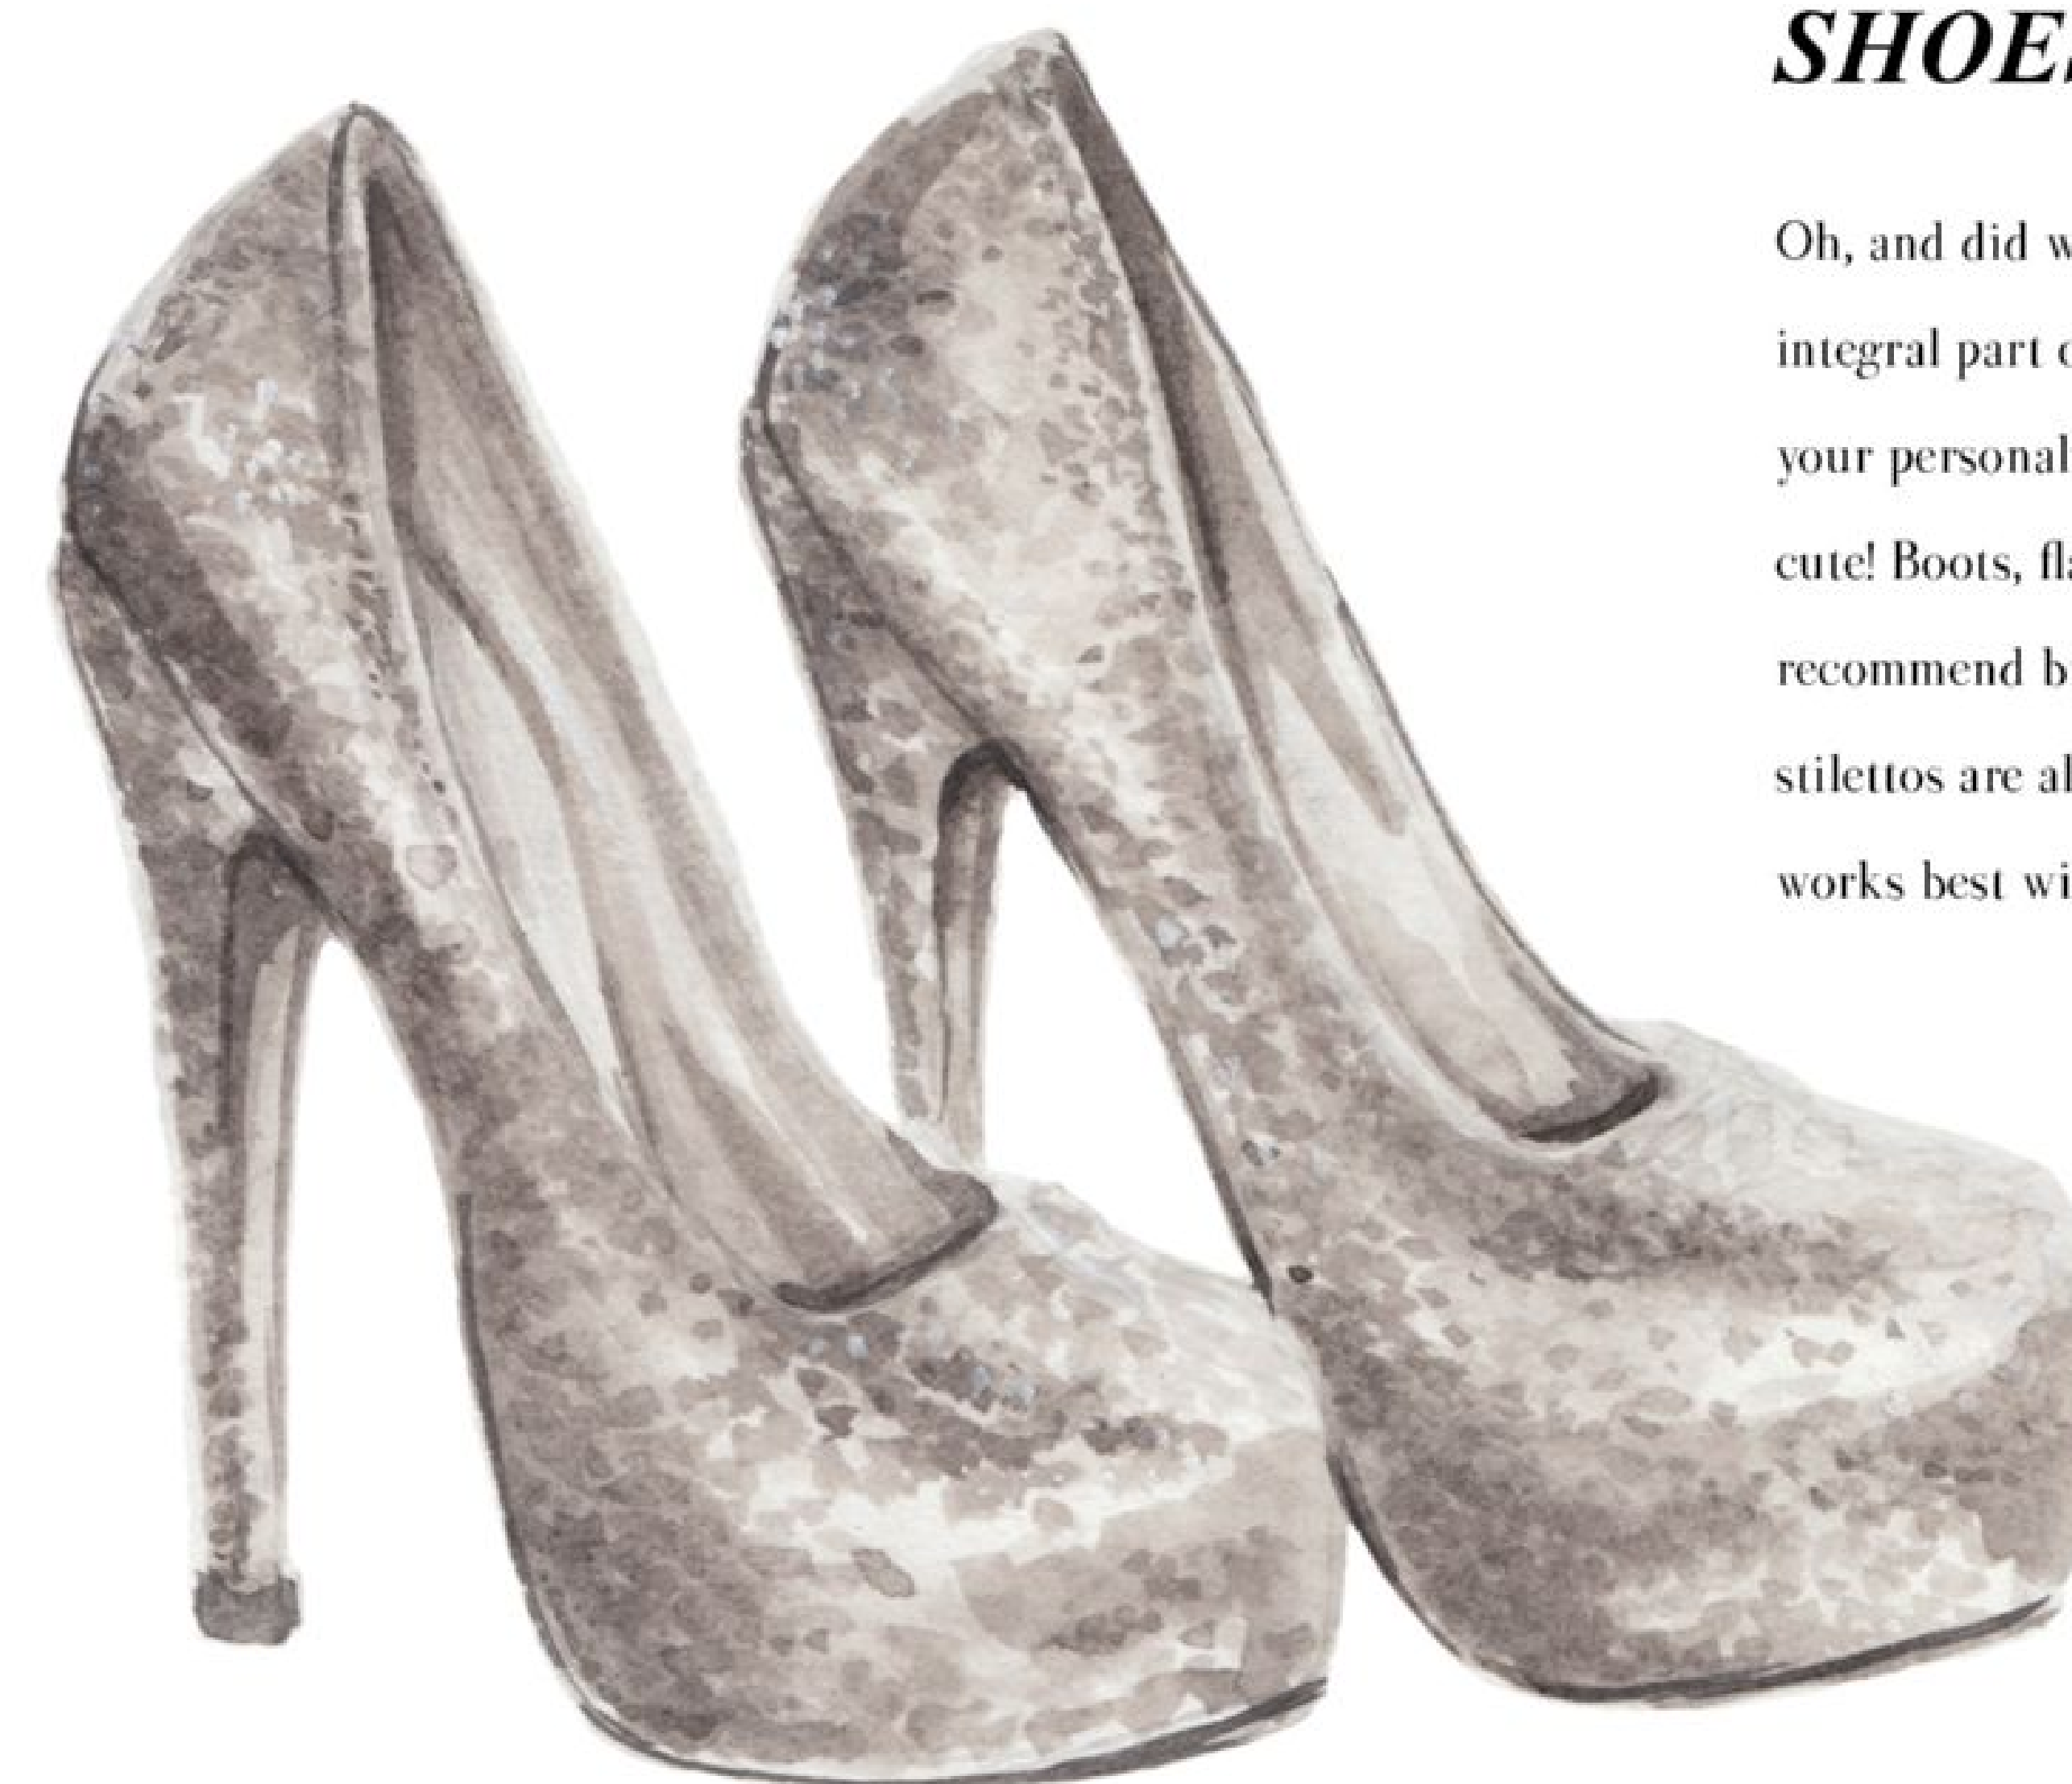

### ***ACCESSORIZE!***

Whether it's your engagement ring, a vintage parasol, a sparkly necklace, your favorite sunglasses, or a brightly colored scarf, accessories can add personality and interest to your photos

### ***SHOES, SHOES, SHOES!***

Oh, and did we say more SHOES?! Shoes are truly an integral part of your images – they set a mood, express your personality, and can add touches of sexy, classy, or cute! Boots, flats, heels, stilettos – we love them all. We recommend bringing multiple pairs of shoes (heels and stilettos are always a favorite) to experiment with what works best with your outfit

*continued* ➞

## OUTFIT OPTIONS

Bringing multiple outfits is always a great idea. You may not feel as comfortable in some than others, and you'll never know what looks absolutely fabulous until you're wearing it in front of the camera! You never know – even an old shirt or two from the hubby's closet can look amazing. We can also help you pick and choose the most flattering items from your collection, so bring it on!

## COLOR, PATTERN & TEXTURE

Colorful accessories, shoes, jewelry, and lingerie can really make your photos shine. Even a small touch of color, such as a scarf or anklet, among an otherwise muted palette can add a lot of excitement and interest to the composition. If you're not sure what colors, patterns, and textures would go best with your hair and skin tones, just ask! We love making recommendations and talking about style with clients.

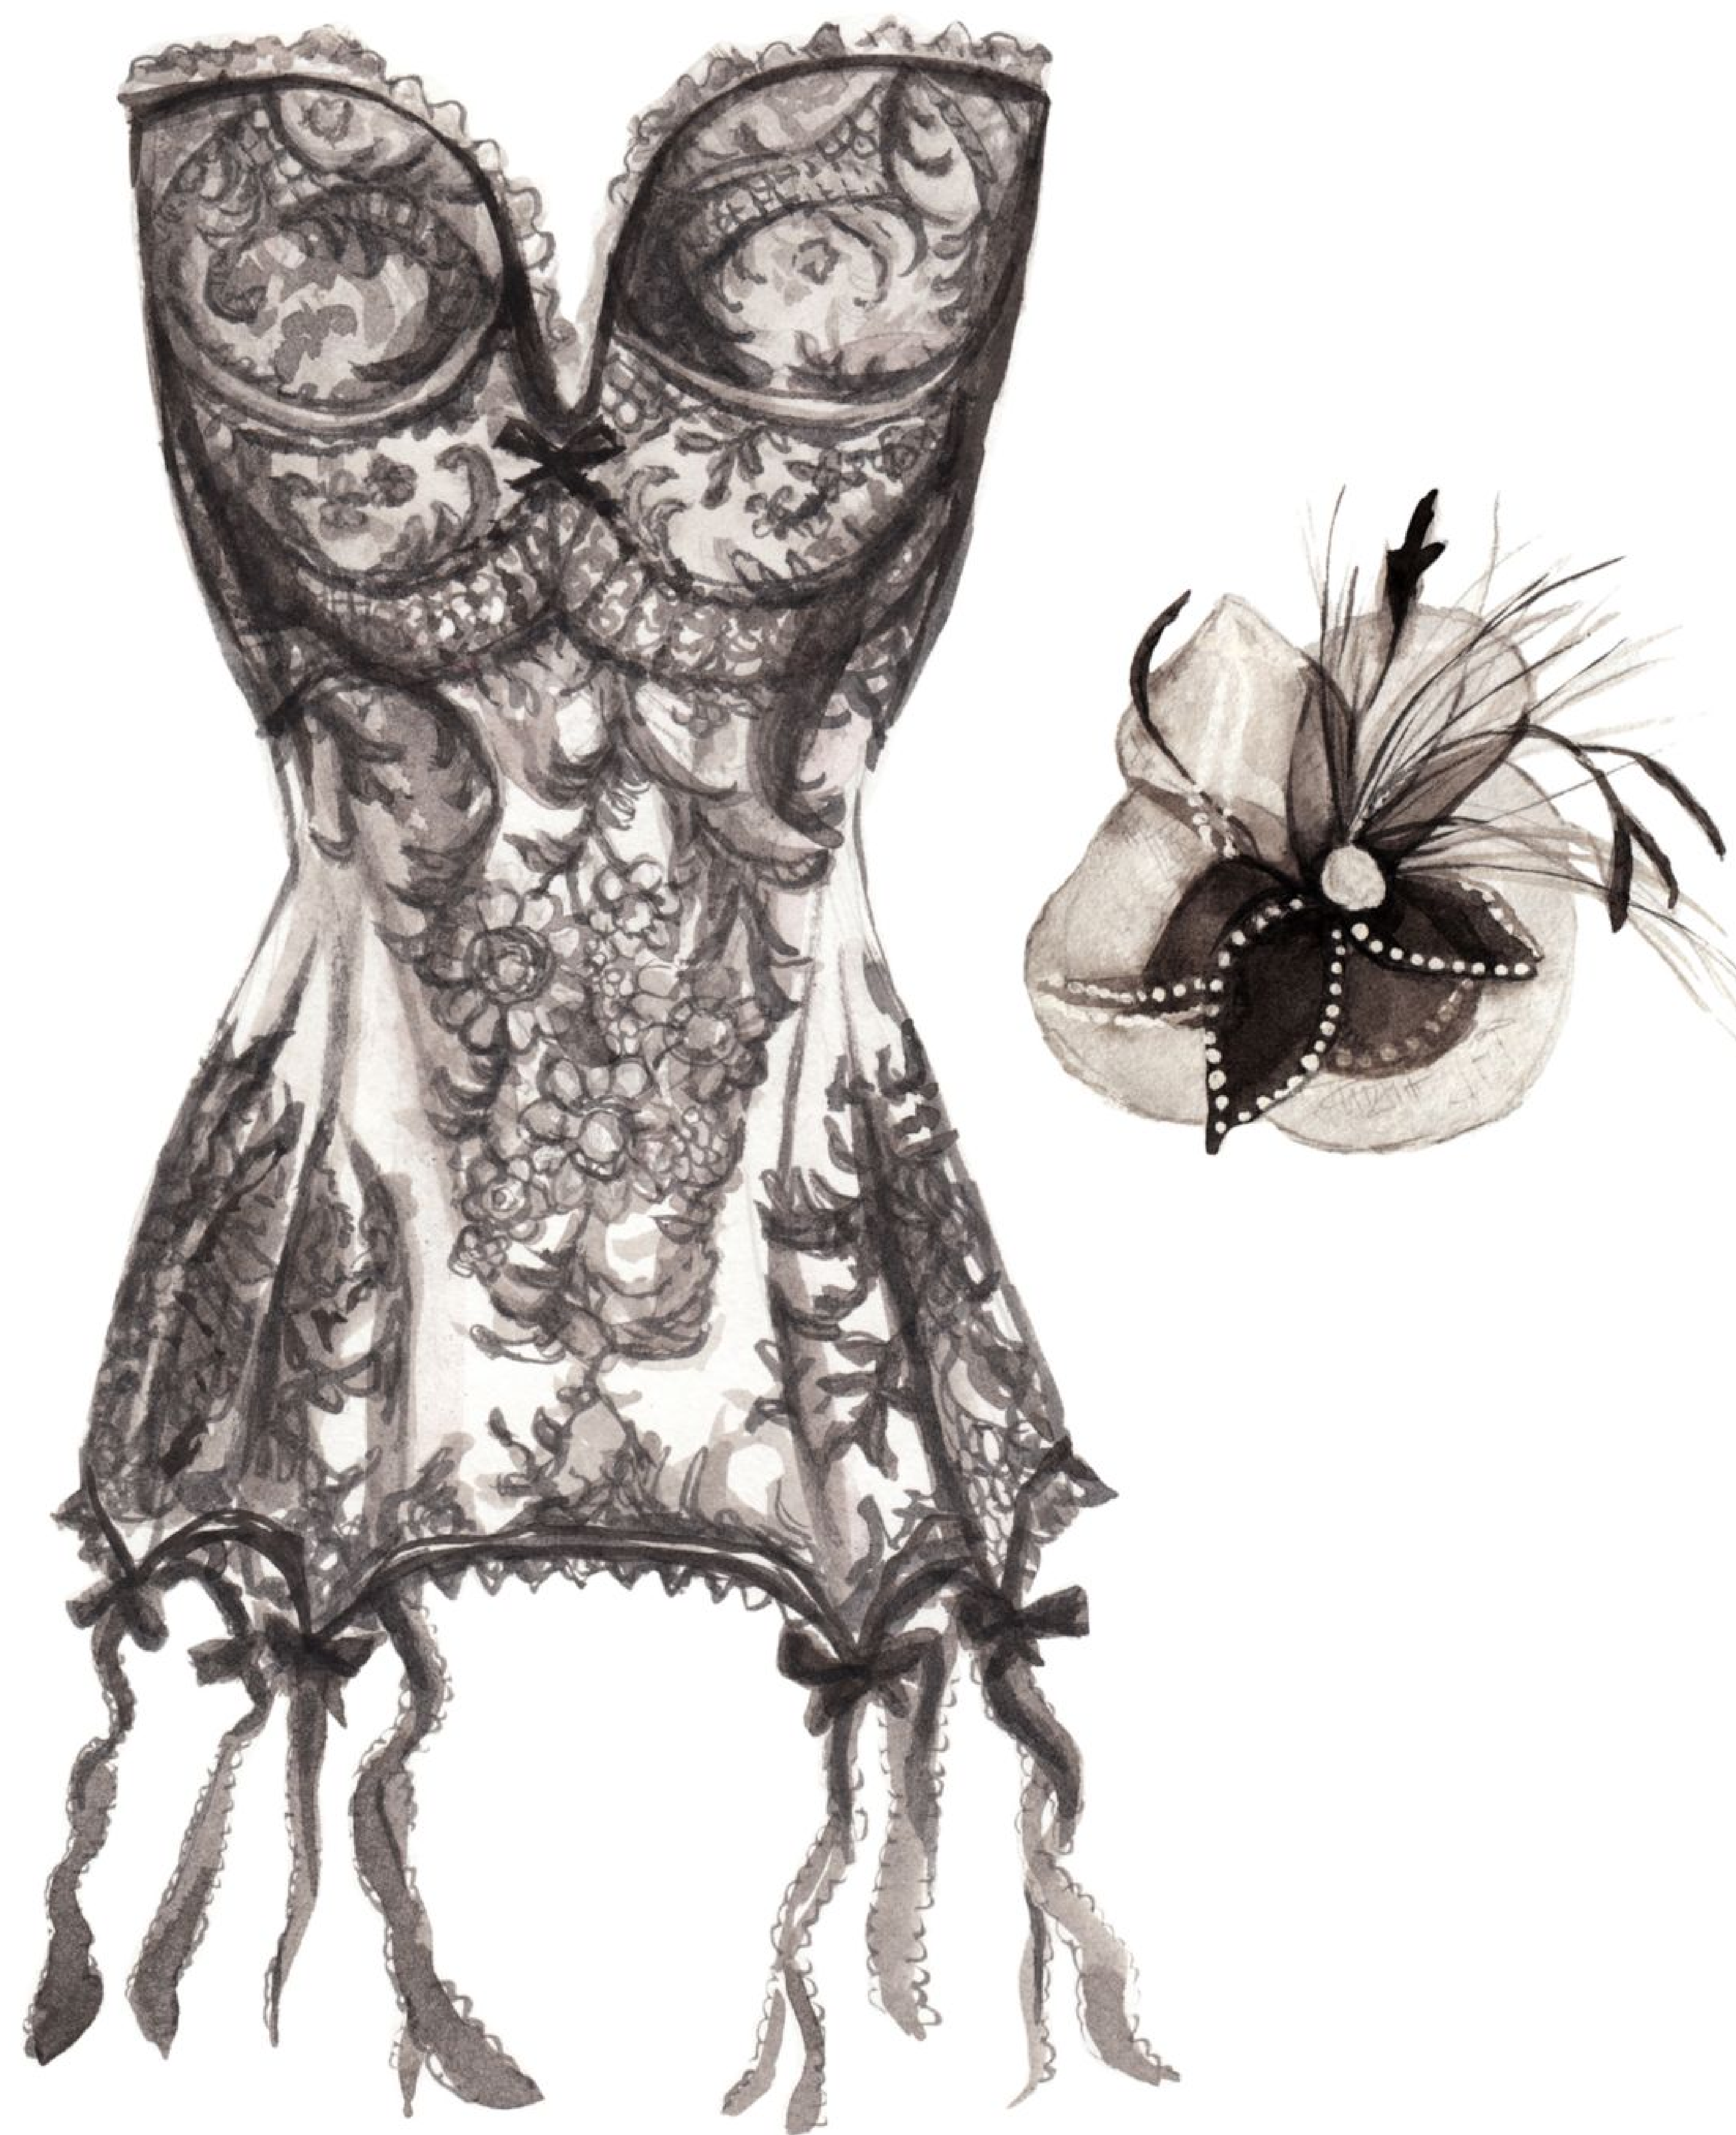

*continued* ➞

## LINGERIE WITH INTEREST

Fishnet stockings, extra-lacey negligees, colorful corsets, ruffles, and patterned fabrics look amazing on camera. We love photographing you in anything – but unique, interesting lingerie pieces are a great way to make your photos really incredible. Ruffles, tulle, and lace catch light beautifully!

# THE *investment*

*You don't need a special occasion to book a boudoir session; it's a special occasion in itself.*

Whether you're single, married, beginning a new chapter, ending an old one – the images we create together will boost your confidence and improve your self-image. If you're booking to give images as a gift, remember that this is just as much a gift to yourself, and that is priceless!

All prints and photo products are professional grade and made to last a lifetime. Crafted by artisans from archival-quality materials, we offer nothing but the very best in color reproduction and craftsmanship to our clients.
